WOOLSEY FIRE REPOPULATION UPDATE

LOS ANGELES (Wed., Nov. 14, 2018) – The Los Angeles County Sheriff's Department is announcing the repopulation of more communities impacted by the #WoolseyFire effective 10:00 a.m. on Wednesday morning, November 14, 2018.

The following areas will be opened to residents orders are lifted for the following areas located inside of the City of Calabasas; this includes all residences within the city limits as follows:

- From **Mulholland Highway** to **Eddingham Avenue**
- Southeast of **Mulholland Highway** to the intersection of **Summit to Summit Mountainway** and **Adamsville Avenue**

This repopulation effort includes neighborhoods of Calabasas Highlands, Mulholland Heights, and Mountain Park.

The following link can be used to assist the public in determining if their property is in an area that can be entered: https://goo.gl/sUCR5v. The link connects users to an evacuation map, maintained by CalFire.

The Fire Incident Command continues to monitor the active fire areas, as well as those areas remaining closed due to critical infrastructure concerns or safety hazards. Any future information pertaining to safety conditions and repopulation will be updated at the following link: www.LACounty.gov/WoolseyFire/

The Los Angeles County Sheriff's Department have a strong presence in the repopulated and evacuated areas for the next several days to ensure the protection of our residents and their property. All other road closures and evacuated areas for the #WoolseyFire remain in effect.

Media Accessibility for People with Disabilities, and others with Access and Functional Needs.

Federal Communication Commission rules under Section 255 of the Communications Act require telecommunications service providers to make their products and services accessible to people with disabilities, if such access is readily achievable. Where access is not readily achievable, service providers must make their devices and services compatible with peripheral devices and specialized customer premises equipment that are commonly used by people with disabilities, if such compatibility is readily available.
